Makara Lagna commenced from  
on 1 Sept 1896

3-38/39 p.m. and there is no

doubt that the birth time of the one he gave me  
Prabhupada was ~~wrong~~ different than in the

Western Society as also in some  
places in India in order to prove  
themselves correct some novices  
go too deeply into rectifying  
charts. They do not understand  
how to do it but if their  
prediction do not occur ~~correct~~  
they change the chart so much as even  
by an hour or more.  
"A little knowledge is a dangerous  
thing."

Prabhupada definitely had

Make Love Loge.

Make Love Loge people (Ascendant Capricorn) has a tendency to tilt their head to one side (mostly to the left), has raendish fore-head dancing comes to them automatically. They are ambitious. Early part of their life is not so good. They pass through turmoil in their 12th - 13th year which creates a feeling of in security in them and so they become more ambitious than average people.

Calcutta time was observed  
which was ~~in advance~~ the Local  
time of birth and not the  
of G.S.T. In order to convert  
to G.S.T. 23 minutes should be  
reduced.
